CHRISTMAS PREZZIES, AREN'T THEY GREAT

So the mag will be on the shelves a month before Christmas. That gives you plenty of time to send us some prezzies

"All I want is a break" was the plaintive cry from Andy. He's been so rushed, nipping off to the butty van, lowering his handicap on PGA Golf, oh, and writing a few lines for the mag, that he craves a holiday. So, Santa, a plane ticket to Canada might not go amiss, and don't worry if you can only make it one way.

Predictably, a Sheffield United season ticket tops Rob's list winging its way to Santa. His hope is that this will secure his seat as he watches the Blades push for promotion and regain their rightful place in the top flight. The deluded state of the boy is quite tragic. Perhaps a few free sessions with a psychologist will cure him of this sad affliction.

At the top of Lionel's list to Santa is a wife. Wedded bliss seems to be the ideal present for our romantic art editor. "He's got a lot to learn" was the response muttered by many. Curiously, all the people expressing doubts were, in fact, married.

More up-to-date and in-depth news items than you can shake a particularly stick-like stick at, that's what these two pages contain and no mistake

A NEW INVASION

he retro revival is in full swing, with the Game Boy's yellow and black being seen as the ideal format to regurgitate old classics. We've been promising coverage of the all-new-but-actually-identical-to-the-original Space Invaders for some time, and at last, we've got some screenshots (see below).

The whole aim of this rejuvenated blast is to produce an almost identical copy of the one which first saw the youth of Britain pumping their 10 pence pieces into arcade slots. Nintendo have been very accurate in their recreation, from the colour and blockiness of the graphics, right through to the style of movement.

Space Invaders should be ideally suited to the SGB, with its maximum 13 colours

being displayed to give an even greater air of classic authenticity.

Also on its way from Nintendo is Game Boy Gallery, a collection of five simple but entertaining games all packed on to a single cart.

Is anyone out there old enough to remember the old 'Game and Watch' series which were featured on the original LCD screens? Well, those games have been brought back from the great arcade graveyard in the sky and packed on to one cart.

Game Boy Gallery features Cement Factory, where you have to help blobs of cement fall on to the lorries.

Then there's Manhole, where you've taken a job at the local council as a manhole and have to bung all the holes so that the public

don't injure themselves! Hmm, nice concept.

The curiously titled Ball follows you from the council to the circus, where, to impress your new employers, you need to display some smart juggling skills with the help of some arm extensions.

Pest control is the next line of work, and mole extermination is the name of the game in Vermin. The little critters need to be bashed over the head as they surface. Harsh or what?

Finally, after four jobs you just can't get to grips with, you enter the leisure industry. A fascinating task holding up flags telling people their time is up should keep you occupied for a while.

It's all packed on to one cart and it's coming your way soon. We'll have more news next month.

ACCLAIM ST KEEDING

ather than rest on their proverbial laurels, Acclaim, who recently brought us MK2, are forging ahead with a veritable plethora of games ready to grace your Game Boy in the coming months.

First up is Itchy and Scratchy, which scored an admirable 86% when it was reviewed back in issue 29.

Due to copyright problems with the licence of these characters from The Simpsons, the scheduled release had to be delayed until January. Still, this amusing and original puzzler featuring the alternative Tom and Jerry combo, is one worth waiting for. Itchy and Scratchy manage to find all kinds of violent things to do to each other on a crazy golf course, and good fun it is too.

Arriving early in the new year is the licence to the smash hit Arnie film, True Lies. We'll have a top preview of this explosive action adventure next month. Also coming your

way is NFL Quarterback '95, which will probably have something to do with NFL quarterbacks, in 1995, at a rough guess.

Then there's Stargate, which sounds a bit on the sci-fi side of the gaming spectrum. Should be a bit of a blast by all accounts.

Monster Trucks is also scheduled for a December release from the Acclaim stable, or should that be garage. Y'know those great big machines with the huge wheels that drive over ridiculously tricky terrain? Well it's all about them. Surprisingly enough.

As the professional wrestling circuit continues to defy logic and remain hugely popular, another sim is on its way. For all fans of such muscle-bound grappling, WWF Raw should be ready for a full airing in time for next month's packed to the gills issue. It'll no doubt feature more contrived action as you try to win one of the many championships up for grabs.

Can you carry Simba through his quest to become The Lion King? Virgin's latest blockbuster puts you to the test

hose amongst you who were fortunate enough to have a dabble at the last Disney licence, Aladdin, will be pleased to see the imminent release of The Lion King. And there's no denying it, The Lion King takes Aladdin to the cleaners in terms of gameplay, graphics and overall challenge.

The latest Disney movie has opened to mass worldwide approval, and has outperformed Aladdin at the US cinema box office with ease. It's not surprising then to see the cart putting Aladdin in the shade too.

Simba, for it is he who is destined to become the Lion King, has to battle through level after level to win his crown. This involves getting plenty of help from his jungle buddies such as giraffes and hippos.

It's certainly a rare thing to see wild animals helping each other don't you think? They're usually too busy squabbling over half a rotten wildebeest carcass or killing each other! But we must remember that this is a Disney licence, and Disney cartoons are all cute and cuddly.

Aaaah! Isn't that sweet?
This is a platform

The superbly crafted backgrounds help make the jungle burst into life, and bar the terrible song by Elton John, the atmosphere of the film has been painstakingly recreated. Which brings me neatly to the Circle of Life. This is exactly what Simba's father teaches him

about the balance of nature. Spooky!

There are many aspects to this game which will leave you gobsmacked, and the variation in gameplay is just staggering, considering this is supposedly a platform cart.

Platform fans need not be put off either, as this has much more depth than your average run and jump effort.

Monkeys will throw you over obstacles safely, rhinos will propel you to the safety of the trees and giraffes allow you to hop across water obstacles. There's even an ostrich which provides some fast scrolling action as you whizz gracefully across the plain. And I've barely scratched the surface!

As if all of this wasn't enough, there's a bonus game where you seem to collect insects (as you do). Speaking as somebody
who's never been to
the jungle, I must

The sound is as good as you'd expect given the limitations of the Game Boy, and the most

impressive effect is Simba's roar. This is used to upturn nasty porcupine things so that they can be disposed of quickly and painlessly.

If you are finding things a little simple after a while, you can simply change the skill level. The three you can choose from are 'cub', which is the simplest, 'prince' which makes things a little harder, and 'king' which is the most difficult.

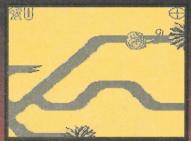

The only bad point about The Lion King is the lack of passwords. It means you'll have to take your time and use your lives extremely wisely. On the plus side, there are continue

MICRO

GAME OVER !

I've had to write this review of Micro Machines, but I'd much rather be playing it - it's great

icro Machines was something of a phenomenon when it originally appeared on the Mega Drive, and for sheer playability and addictiveness it remains unsurpassed. Conversions followed, all incorporating the same kind of frantic driving fun, and all storming to the top of the charts.

There was just something eminently playable about these mini motors, bombing at high speed

version doesn't have this (although of course it is SGB compatible allowing you to customise your own colours), so does this diminish the bright 'feel'?

Certainly not. Micro Machines is an absolute joy. For those of you who have never heard of this top selling game, here's what it involves.

Basically, it's a driving sim featuring miniature vehicles such as sports cars, four wheel drives, helicopters and power boats.

Racing around such everyday 'tracks' as the bath (without a

body in sight), the back gar-den and the breakfast table, you have to go as fast as possible whilst always staying within the confines of the unusual courses.

Choose to race as any one of the eleven drivers in a head-to-head tournament, or take up the 'challenge'. The

challenge is made against three other drivers and you have to finish first or second in order to qualify for the next race.

All modes of transport are utilised, and only the driver who can adapt to the different styles of control and course will be successful. Finish first in three races and you qualify for a bonus game which involves driving a monster truck through a puddle covered garden.

I'd like to tell you what happens when you beat the clock in the

bonus

In head-to-head mode you race against just one other opponent with the simple intention of getting so far ahead that they disappear off

A sliding scale of eight dots serves as a scoring system, and with each driver starting on four, the first to fill all eight dots wins.

The first to win four races is the overall winner and picks up a nice piece of silverware to gather dust on the mantelpiece. Unfortunately there's no champagne to spray over members of the press, public and the other drivers, but hey, you can't have everything.

Each of the 27 different courses follow exactly the same route as those on other versions, and offer plenty of rip-roaring, adrenaline pumping racing. Anything from the garage floor to a snooker table is utilised as a racetrack.

And it's so fast and smooth. The micro machines fly around the tracks at an incredible rate of knots. The whole graphics and animation package is exactly the same as you may have seen on other formats.

Likewise, the tunes are reasonable renditions of the happy little ditties which have graced other systems with their chirpy melodies

I know I'm going on a lot about the other versions of Micro Machines, but that's because it shows what an achievement it is to ity and sheer good fun into this cart.

While miniaturised Micro Machines might be a bit of a strain on the eyes at times, especially in incredibly fluently, and a two-player option simply adds to the endless possibilities of racing mayhem that

Miniaturising the Micro Machines seemed, at first, to be a risky thing to do. But all credit to the developers, it's absolutely superb. The Game Boy doesn't enjoy the same kind of processing power as the other console systems, but who needs it when games of this quality can be produced?

Many Game Boy games try to push back the limits of what can be achieved on the portable palm pleaser. Micro Machines doesn't do that, but what it does do is take a game which is a proven success and convert it with almost unerring accuracy.

iny Toon Adventures Wacky Sports throws Buster and Babs Bunny, students of the Looniversity, into a great sporting challenge. Needing some physical stimulation,

> the Toons set themselves a true test of strength, stamina and skill in the form of six events.

To decide who really is the coolest Toon of them all, Buster and Babs have to complete tests in baseball, American football, proper football, tennis, basketball and golf. Strict qualifying requirements have been set to separate the wheat from the chaff and the toon from the loon. So, after a pleasant opening ceremony, perhaps lacking a touch of the pazzazz of recent Olympics, the games themselves begin.

Starting off with the football, Buster (or Babs) has to score three goals from five shots past a fox-like goalie. Succeed and you move on to the basketball where slam dunkin' is the name of the game. Two successful baskets (or goals as they are mistakenly described) and then it's on to the tennis.

This is where things start to get a little tricky, even on the easiest of the three difficulty settings. Basically all Buster has to do is hit a number of panels on the back wall. It's a simple matter of timing, coordination and more often than not, pure good luck.

Get past this section and you're on to the golf. It needs

plenty of practise and a good eye for judging angles.

American football, a basic run through a load of speeding defenders, and baseball, timing your hits from Dizzy Devil's mighty throws, make up the rest of the challenge.

Good fun it is too - for a while. All the events offer a fair bit of challenge, but once you've worked out the basic controls you should sail through them. Admittedly, the 'Super Class' level is very tough, probably too tough to be worth spending any significant amount of time on.

These events put the two bonus carnival games into the shade. Although the Water Gun Target Shooting is fun, Water Panic really won't grasp the imagination.

It's all neatly packaged, offers good solid fun for a while, but lacks any real long lasting

appeal. GBA

With nine million viewers and another series in the making, it is obviously hugely popular.

In the year 2018, SeaQuest DSV's job is to protect the inhabitants of all the sub-surface colonies. Now these colonies have emerged (or

rather submerged) due to global warming, which has seen most of the Earth's surface covered in water.

But, this underwater civilisation presents numerous problems for the authorities, and opportunities for modern day pirates. The UEO, the united governments of the world, are behind the seaQuest project, and are determined to safeguard the lives and livelihood of these people.

Your task is to complete the game's total of seven mis-

sions, which require the use of various smaller vehicles such as the HR Probe and the Stinger attack sub. Searching and retrieving or

seeking and destroying constitute the main aspects of each mission against either terrorists or the

elements.

Darwin the loveable dolphin plays a vital role in one of the missions, although

this seems like nothing more than an obvious bid to keep everything tied in with the TV show as closely as possible.

SeaQuest DSV managed to earn itself the accolade of Top Game Boy Award 1994 from this

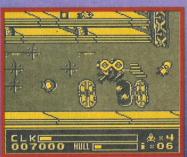

summer's CES (Consumer Electronic Show) which was held in America. Nintendo Power magazine (sort of an American version of GB Action, but inferior of course) rated it as one of the top five games of the year.

All I can say is that these Americans are easily pleased. Not that seaQuest is bad – it's okay at what it does – it's just not ground breaking. The main criticism of this underwater adventure is that it's just a bit too slow.
While the sluggish controls may accurately represent movement underwater, they don't make for a particularly absorbing game.

Graphically, seaQuest is above average. The sounds are, well, average, and the overall feel is one of total middle-of-the-roadness.

If you enjoy the programme it's sure to be entertaining. If not, seaQuest may not grip your attention for too long. @A

It's a game certainly for the younger ones, who may find the different methods of controlling the various vehicles original and challenging in their own right.

And of course there's Darwin too – everyone likes dolphins, er, don't they?! So it's probably worth a look. It's different at the very least, and isn't just another mind numbing platformer. Now that's got to be worth something.

It's been a certifiable smash hit in the arcades and on the SNES, and now NBA Jam is coming to the Game Boy. Time to don those fiery boots.

Boomshakalak

fter the SNES version of NBA Jam emerged as an absolute stormer, we received a flood of letters asking if it would ever appear on the Game Boy. I believe we intimated that it probably wouldn't show its face on the portable palm pleaser, but thankfully, Acclaim have proved us wrong. And to top it all, they've done a damn fine job.

Beam Software, the development company behind this project, can give themselves a deserved pat on the back. NBA Jam certainly manages to capture all the thrills, spills, moves and athleticism that are so much a part of the other versions.

From the initial options to set the timer style, computer assistance and difficulty level, you can tell that there's a good few months' playing to be had from this cart.

For a start there are 27 different teams to choose from, each with two highly individual players. This means that you have the choice of controlling any one of 54 entirely different sportsmen. Now if that doesn't offer some variation then I don't know what does.

Each player in the two man team is given individual ratings for their speed, their ability at three point shots, dunking and defence. You can pick who you want to be from a list of all the top NBA stars including Patrick Ewing, Karl Malone and Magic Johnson. However, don't get too starstruck, as it also pays to bear in mind the qualities of your CPU controlled teammate. Some of them are a little dodgy when

compared to the well known names.

Anyway, once you've selected your player you're ready for the tip off. The court is quite a decent size, giving the players plen-

ty of room to run around and get their passing and special moves sorted. Your player is highlighted by an arrow which follows him even when he isn't on screen. This is essential to avoid confusion, and gives you the opportunity to control the passing and shooting of your teammate too.

What is a little surprising, and pleasantly so, it must be said, is that

most of the special moves and dunks have been included. These moves are really the cream on the cake of the other versions, adding something never before seen in basketball sims, and giving a more exciting, spectacular feel to the whole game.

There's just nothing like passing the ball around, making a break and a quick pass, then getting the ball under the basket before soaring into the air with arms outstretched and slamming it

down for two points.

Different players have different moves. Some perform stupendous somersaults in the air before the slam dunk, while others leap with balletce and gently lob the ball past

ic grace and gently lob the ball past the despairing grasp of the defenders. It really is a spectacle to behold.

The famous 'fiery boots' situation is also included. Should a player dunk three baskets on the trot, they become 'on fire'.

This is the computerised version of adrenaline rush power plays, and mightily effective they are too, so go on, get dunkin'. CORCHING TIPS

shot for those among you who happen to quite enjoy blandness

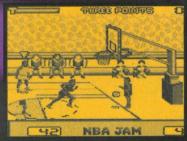

Graphically, NBA Jam bears quite a resemblance to the styles seen in the other versions. The players move with the same mannerisms and with a speed which can cause some blur and confusion as the ball zips between them.

Thankfully, this is overcome totally on the SGB, with the enhancement of the big screen really making a difference. That's not to say that NBA Jam doesn't work on the small screen, it does, surprisingly well. But there are obvious advantages associated with viewing the players on a TV screen as opposed to a glass plate which is only a couple of inches square.

Plenty of tunes help get the atmosphere bubbling to fever pitch, so there can be no marks deducted for programming effort there.

Other basketball sims have been and gone, but there's no doubting that NBA Jam is here to stay. It is already guaranteed success thanks to the massive interest generated by versions on other formats, but it's also a genuinely great game in its own right.

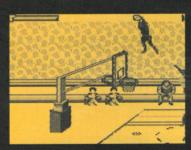

NBA Jam is a veritable slam dunking fest of epic proportions. @A

hether you're a fan of the Raiders, the Dolphins or the Bears, you will find your team, along with all the others, featured here.

So, pull on your shoulder pads and your best running shoes to do battle on the field. After all, that's what it comes down to isn't it – battle. Two teams consisting of nimble runners, a kicker and a wall of players with the aerodynamics of breeze blocks, make for a darn fine sport.

Having said all this, there's still no denying that it's a sport that you either love or hate. For those who fit squarely in the latter category, I would strongly recommend you take time out to try to understand the moves you can make. This is, after all, what confuses the majority of armchair spectators.

There are plenty of plays to choose from – over 200 in fact – and to learn them all would take any normal human numerous attempts.

It's a learning process you see, and to make matters worse, it all depends on the defense/ offense your opponent is using!

As you may have guessed, it's a game with more ups and downs than a bungee rope! No two games are the same and that's an important factor in my book.

My only gripe is that the sprites on the field are a tad too small. But having said that, they're represented in all their glory, right down to the last shoelace.

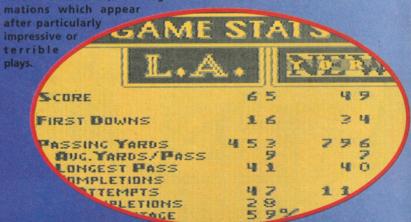

If you're fortunate enough to own a Super Game Boy, then this could be an investment opportunity not to be missed!

Let's face it, it's cheaper than a Mega Drive cart and equally as playable, if not quite up to the Mega Drive's graphical standard.

Gripping in every way, Madden looks set to blast your doubts aside. At first, I was slightly sceptical about the end results of converting this classic to the 'Boy, but sure enough, it has all the elements which made the others such a hit!

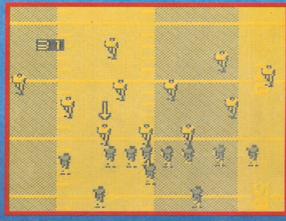

Especially impressive are the snippets of John Madden himself which appear from time to time, looking as well as ever.

olf Classic features just about everything you're likely to find on a golf course bar the wet weather and the endless searching for lost balls. In the first instance, you can choose to play a single practice round on one of the two rolling courses, or you can go head-to-head

in match or stroke play tournaments.

Then you get to pick which player you wish to be from a choice of four. There are two amateurs and two professionals, one male and one female to avoid any sexism - can't be having any of that, can we?

Picking an amateur is effectively 'easy' mode. Amateurs have a slower swing, making it easier to strike the ball cleanly, and they also have the chance to 'take a mulligan' once per hole. Basically, this is blatant cheating. You can choose to take one shot again without penalty very handy when the ball sails into the water or gets lost.

To compensate for this, amateurs cannot hit the ball as far as the pros, so club selection changes when you step up to join the elite.

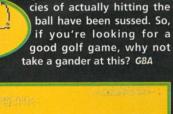

Viewed from overhead, the actual playing of a shot involves a few stages. Firstly, you must place the cursor where you want to hit the ball. Then you must select your club. An automatic caddy can take this problem away, but you don't always have to take their word for it.

> Choosing the type of shot is next - whether you wish to hit the ball with top or back spin, with hook or fade. Once sorted, you may then set your golfer in motion to hit the ball. This is the really

tricky bit which will take some getting used to. Rather than a straight forward power bar, you get

a little animated golfer. A press of the button will set him moving, then it's down to timing the shot so that you don't over hit.

As the club descends, you have to 'snap', ultimately causing the ball to either hook or fade. This system is very awkward to get used to, but is well worth the effort in the end.

THE FLINTS

urning the classic cartoon starring everyone's favourite caveman into a blockbusting live action movie was always going to be quite tricky, and despite the rotund talents of John Goodman in the title role, it failed to deliver the avalanche of interest which was expected.

Typically, however, the game licences were already signed, sealed and delivered, and the Game Boy version came into the hands of Twilight Software, the people behind Yogi and Alfred Chicken among others. Previewed a couple of issues ago, it looked like becoming a top quality platform adventure with enough sub-games thrown in to keep you occupied should the interest in completing the missions wane.

And how has it turned out? Well, the plot closely follows that of the film. Over the seven levels, you get to control Fred as he makes his way home to the family, Barney as he goes in search of Bamm Bamm, Fred again as he rushes to get to an important meeting, Betty as she collects food for the family tea,

Fred once more as he flees from the Bedrock Police and his workmates, Wilma as she attempts to clear Fred's name, and finally, Fred as he goes to rescue both Bamm Bamm and Pebbles and capture the evil Cliff Vandercave.

These missions cover a massive 62 levels (22 more than Wario, stats fans!). And, not only does

it have a bigger playing area than Nintendo's chart topper, it also has three brilliant sub-games thrown in for good measure.

Dotted around the levels are a number of a r c a d e machines, and for the

of one coin (collected by killing one of the bigger monsters), you can take a time out from the mission in hand to enjoy a game of Dino Invaders, Dino Dash or Snake.

Dino Invaders is a basic Space Invaders clone with more stone age than space age critters. Amazingly good fun it is too. Dino Dash is a Pac Man variant,

again in a stoney

setting, and Snake is a highly addictive game where your 'snake' has to collect a series of hearts which increase its size, making travelling around the arena all the more tricky.

All these arcade games are self contained, with high scores and the like being recorded. They can also last for quite a while, such

are the addictive qualities which have contributed a great deal to making these games arcade classics.

There are also four different endof-level games which can reap extra lives if you manage to beat Bamm Bamm at cracks 'n' crosses, Barney's

memory game and
Fred's bowl-orama. Like the

To be fair, the presentation of these levels is excellent. They feature some natty parallax scrolling, but don't offer the kind of challenge which was seen in Yogi.

Graphically, The Flintstones features some big, bold, well drawn characters bearing a striking resemblance to the actors who portrayed them in the film. The animation is smooth, with plenty of detail. The backdrops are a little sparse on the whole, but that criticism could be picky for the sake of finding fault. Perhaps we're expecting too much from the creators of two veritable Game Boy classics.

The tunes don't grate and flow quite merrily with the action, helping things to roll along at a more than reasonable pace.

Many people will still find this thoroughly entertaining. There is, for example, a side scrolling driving bit where Fred powers his familiar foot driven car over roads which would

shame even our Department of Transport. A bit of welcome variation indeed.

The platform style is also adapted to puzzling missions later on, where a whole series of doors have to be opened to make any progress. Getting through is far from easy, so making notes of where you go might help save your Game Boy from a battering.

The Flintstones is a platformer with some considerable depth. The sub-games are highly entertaining but perhaps too much fun, detracting from the familiar platform jumping. Still, you effectively get eight games in this one cart (three arcades, four end-of-level challenges and the main one). Now that represents value for money in anyone's book. GBA

The Flintstones is a platform game without doubt, but even if you're sick of the genre, there's enough in the sub-games to keep you occupied and amused.

With individual games such as Pac Man and Space Invaders making cameo appearances, those struggling to find the cash to enjoy this revival of old classics be a useful stop-gap. But it is defi-nitely more than that.

The enormous levels offer plenty of platform challenge, as well as an assortment of puzzles to entertain, amuse, and more than likely, infuriate.

REVIEW

The most famous monsters in the world are on the loose. It's time to take another walk in the park

ell, at least it's not a film licence. The sequel to Steven Spielberg's stunning dino movie is still in the pipeline, but the game is already here. And guess what? It's another blinkin' platformer.

A new, non-linear game engine was mentioned in the pre-release hype, and that could have been really good news. In fact it's turned out to be impressively presented, bog standard platform fare.

The dinosaurs have escaped from the park and are roaming the island of Isla Nublar. You have to wander through said park, collecting a number of JP tickets (which do what?) whilst trying to get the park back on line. A few first aid packs are dotted around the place and help heal the wounds inflicted by marauding dinosaurs.

From the first zone you leg it around familiar platform territory, leaping over spike filled chasms, jumping through the branches of trees and shooting the dinosaurs which get in the way. Does this sound at all familiar?

Apart from the dinosaurs bit it's all very similar to the multitude of

JURASSIC PARASSIC

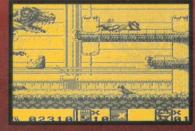

other platformers Game Boy owners have come to know and... (fill in the blank with something appropriate depending on your preferences).

You then move on to the T-Rex Pursuit which obviously owes its influence to the famous chase scene from the movie. Remember? Jeff Goldblum wetting himself in the back of the jeep?

Unfortunately there's none of the adrenaline p u m p i n g excitement that is present in the film. It gets more than a little annoying because you need to go through the

course a few times, learning which route to take. Once this is done it's a piece of cake, and there's very little challenge left.

A water rafting stage provides a little difference, but it can't hide the fact that JP2 is still a platformer. ▼ A rather sorry end at the hands of the pursuing T-Rex

Of course there are the obligatory end-of-level guardians, which again look great, but lack any sliver of originality.

Apparently, there are 14 different missions to complete. These involve encountering disloyal and greedy corporate employees, paratroopers and snipers. What's the betting they're all stuck up trees or lurking on platforms?

Perhaps I was expecting a little too much from this sequel. The new game engine is just the same old familiar platform one with neatly drawn sprites, good animation and totally dull gameplay. GBA

▲ Time for the off. A little practise is obviously needed. He's not going to hit the approaching dino aiming at the sky

▲ The third guardian is also unpronounceable. Looks like a manic ice cream cone gone slightly berserk

The first JP wasn't an absolute stormer, but it was challenging, entertaining and fairly original. The promise of a new game engine and a more non-linear approach is a little misleading. JP2 is just another standard platformer.

Okay, the graphics are fine (great in fact), the animation is smooth and the tunes are top notch. It plays well enough, is simple to control and has a reasonable degree of difficulty. It should be great. It's not.

If you've seen a standard platform game, then you've seen JP2. The run, jump, shoot monotony is quite tragic. Just think what this could have been with new dinosaurs and a new adventure in the world's most famous park.

Instead, it's more like a dull day out at a dismal Sunday market.

It all concerns a young chappie by the name of Richard Tyler (played in the film by Macauley Culkin). Now this Tyler lad has simply no concept of life, of enjoying himself, of partaking in the mischief normal teenagers get themselves into. He spends all his waking hours worrying and fretting about the environment, the threat of nuclear war and the possibility of earthquakes. What a sap.

If this kid is so stressed out, he might as well stay in his fantasy world. But no, there's a story to be told and a moral to be rammed down our throats.

To overcome all his fears and hang-ups, to come to terms with his inner angst, to just chill out, Richard has to face an assortment of fictional baddies. Mr Hyde, Jacob Marley, Frankenstein's Monster, Long John Silver, Captain Ahab and the Big Bad Wolf all have to be confronted.

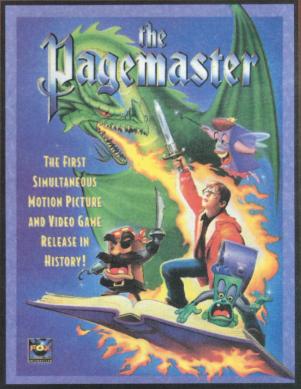

Bad Wolf all have to be confronted.
In game terms this means a trip through Horror World, Adventure World and Fantasy World, collecting magic shoes, bags of eyeballs, sticky goo and fairy dust. And all this takes place in a platform setting with the characters moving in a very similar manner to those seen in Blues Brothers.

Books apply some arcade style action and play a vital role in all the proceedings. These novels can also be gateways to the numerous secret rooms which are hidden throughout the large, scrolling levels.

It's all developed by Probe Software, the team behind FIFA amongst others, and with a pedigree like that it should be a bit of a stormer. Check out next month's mag for an in-depth review. GBA

But, Nintendo suggest that this is a fresh game, laughing

Nintendo's Soccer gives a single player (no two-player option) the chance to compete in friendlies, league, knockout or tournament competitions featuring most of the major footballing

Options galore adorn the game setup, and the speed can be altered to your specific taste, effectively giving three levels of difficulty. Goalkeepers have three levels of competence from the Alan Kelly (outstanding) to the Dave Beasant (hmm). You can

even play God and change the weather conditions, again affecting the game speed.

Then there are team details and plenty of squad, subs and formation options to set everything up exactly how you want it.

Now you're ready for the match where good sized players pass, dribble, shoot and tackle to their

ble, shoot and tackle to their hearts' content. The referee's whistle is set at a highly irritating pitch, but hey, isn't it always? Yellow cards and sendings off are also featured for those ill-timed or just plain vicious sliding tackles and elbows. (No witty analogy to current Premiership players for fear of High Court actions).

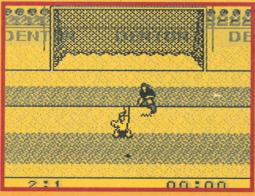

▲ Throw in. Smart. Nice one. Lob it to the guy at the bottom. Ace

It all seems pretty realistic, and what's particularly impressive is the feeling of body strength in tackling. What this all adds up to is an entertaining, realistic, challenging soccer game which should keep all football fans appeased.

Soccer is due for release in December and could be seriously worth considering. Come on you Blades! GBA

As Old Father Time brings his scythe down on yet another year, we take a peek at some of the highs and some of the lows of 1994

Class Carts

Game Boy owners never had it so good. It's as simple as that. The quality of the carts reaching the shelves has gradually increased, and there's barely a game appearing which doesn't have at least a few features in its favour. So here's a quick recap of some of the top games of the year:

Monster Max 94% Issue 26

Quite simply stunning. Jon Ritman created a classic which no self-respecting Game Boy owner should be without.

Wario Land 93% Issue 24

Not surprisingly, Wario stormed to the top of the charts with a superbly presented platformer.

Donkey Kong '94 94% Issue 30

Heralding the arrival of the Super Game Boy, this old classic was precisely converted to the handheld. Loads of levels of addictive gameplay made it a sure fire hit.

Lawnmower Man 91%

Recently given its official release, this is the closest the Game Boy will come to Virtual

Reality. A top game featuring platforming, shoot'em up and puzzle aspects.

World Cup USA '94 92%

This cart oozes sheer class, and just pipped Striker for the championship as World Cup fever got into full swing.

Cool Spot 94% Issue 27

This is a stunning platformer featuring a standard of animation never before seen on the Game Boy. Evidence of what Game Boy games can be like if a bit of thought is applied.

Race Days 94% Issue 29

Gametek got two top games and packed them on to one cart. It had to be a bargain. Both Dirty Racin' and 4 Wheel Drive are class in their own right. Put them together and it's unmissable.

Lemmings 2 95% Issue 32

An absolute stormer. Oozing addictive gameplay, this took the excellence of the original Lemmings to a new, higher plane. Quite simply brilliant.

Madden '95 92% Issue 33

American football on the Game Boy. They said it couldn't be done, but Madden proved everyone wrong. It's a class simulation of a highly complex game.

Desert Strike 90% Issue 31

After the glory that was the Mega Drive version came a handheld variant of equal quality. An amazing reproduction of the top helicopter shoot'em up.

ak Paks

Okay, so there were a lot of great games available, but inevitably, there were also a couple of dire efforts which should never have seen the light of day.

Gear Works 42% Issue 21

Astoundingly unplayable, dull and boring. This attempt to create a puzzler with the addictive qualities of Tetris failed miserably, and we pity all those people who bought it.

WWF The Main Event 49% Issue 25

Another flippin' wrestling sim to add to the many others. Offering nothing new, it just tried to cash in on the continuing (why?) popularity of this dreadful American 'sport'.

Super Game Boy

1994 saw the arrival of the latest piece of Nintendo hardware. Game Boy owners have been wanting to play their games on a TV screen for years, but the SGB was seen by many as a bit of a let-down.

It enables Game Boy games to be played on the big screen, but only if you already own a SNES (£80) before shelling out on the SGB (£50). Bargain? Hmm.

The letters arriving in our postbag seemed to confirm Nintendo's view that you'd all be running out to buy one, and with more and more games arriving with their own SGB border and the full 13 colours, this should help boost interest. By next year we'll know whether it's been a rip-roaring success or not.

MADD F

Surprisingly enough the world does continue outside the confines of the offices of GB Action. Here are some of the highlights:

Ireland

The historic move towards peace in the trouble torn province. Fine work all round.

Royal Family

Always in the news, and this year was no exception with Prince Charles' admission of adultery on national TV. Hmm, not so fine work.

Wet Wet Wet

This cheery band were number one all year! Scottish scumbags.

Take That

An image change thrust these fine young men to the forefront of teeny stardom. Good for them.

World Cup

Brazil ran out winners in the great football spectacle. And of course England weren't there thanks to a certain Graham "do I not like that" Taylor and Ronald "cheatin' Dutch scumbag" Koeman.

Andy's tunes have delighted the assorted collection of reprobates masquerading as writers on some of our sister mags. He vigorously claims that such comments as, "what is this utter drivel?", are merely expressions of pleasure and delight at the cacophony of sound emanating from the office ghetto blaster. MARIO G

Progress is certainly being made in this instalment, with plenty of going backwards and forwards required to complete this strange stage. SS Tea Cup is completed and ??? Forest begins

Watch out for the jumping gators and you'll safely reach door A and the rest of the level

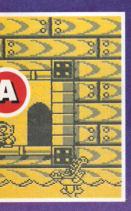

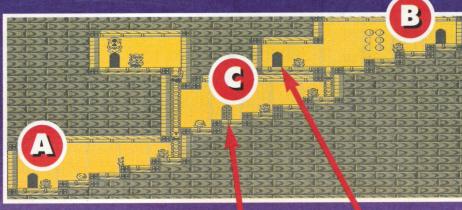

UIDE PART 7

A complex level with several areas to explore. Not too much trouble for you if you take your time and use caution

CHRISTMAS 1994 GB ACTION 35

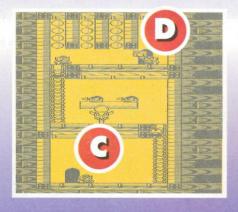

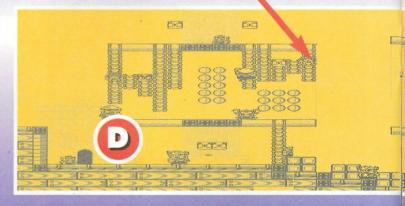

Once these blocks are destroyed, the entire level is opened up to you along with coins aplenty

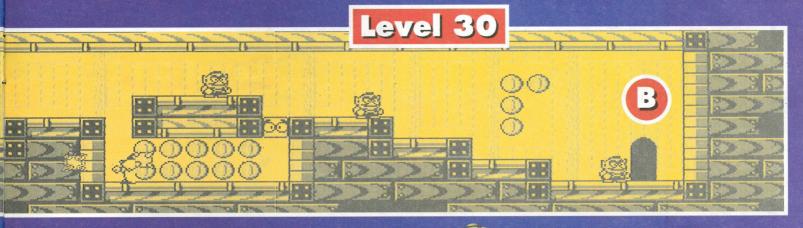

Watch out for these nasties. Their claws will kill you, so make sure you keep well out of their way

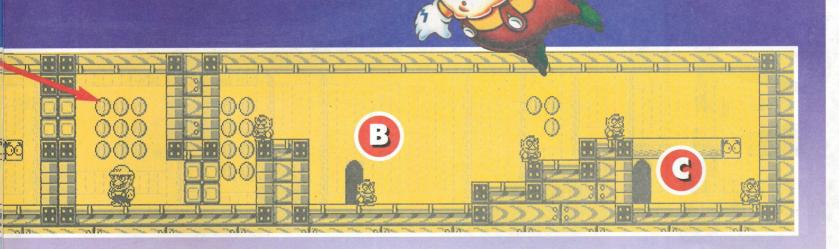

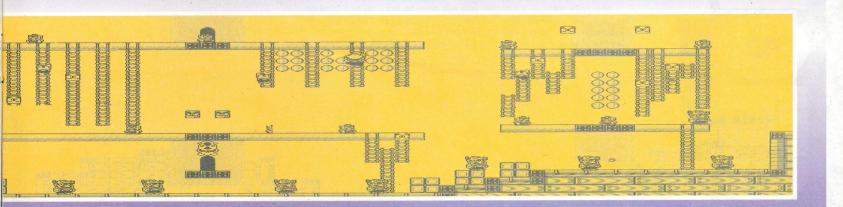

Wario Guide Part 7

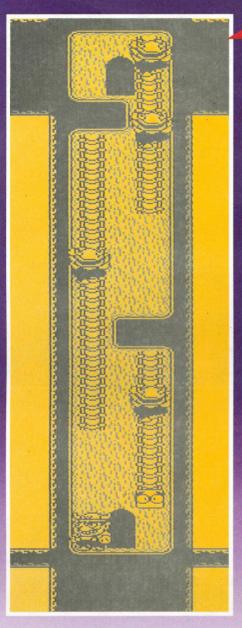

Plenty of bonus blocks here. There are loads of opportunities to obtain extra lives and you'll find yet another treasure!

Continued...

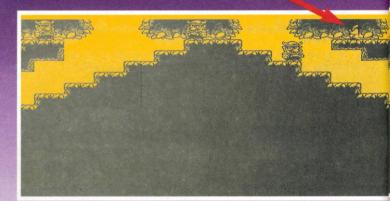

Dead easy this! Climb the ladders to reach the top and meet the end-of-level nasty

Level 31

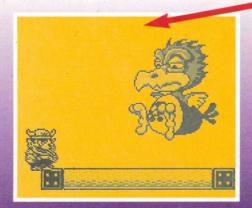

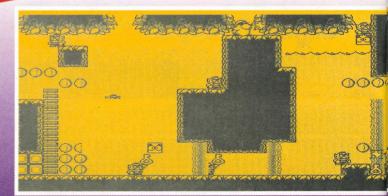

Watch out for spiked boulders when you're swimming through this level! Every time one of these can be seen, one boulder will fall from above

A little trickier than most, but if you have the Dragon Hat you can leap up whilst throwing the flames from your headgear. The baddie will take only three hits to the head before it is destroyed.

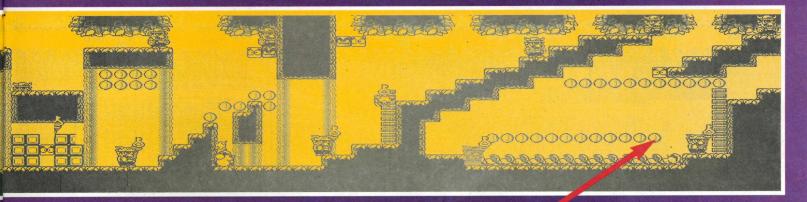

If you're without a weapon you will have to leap up and land on its head. It's not that difficult on paper, but when it throws its little buddies at you, some nifty dodging is needed. Jump on these to get the extra height needed to reach the big nasty's head!

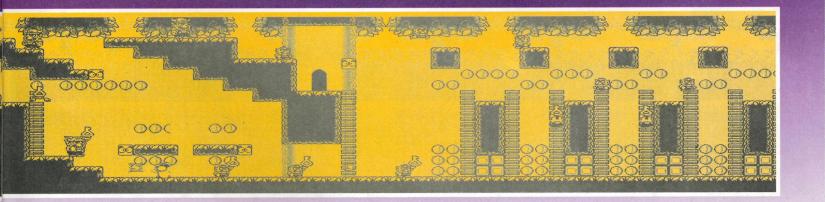

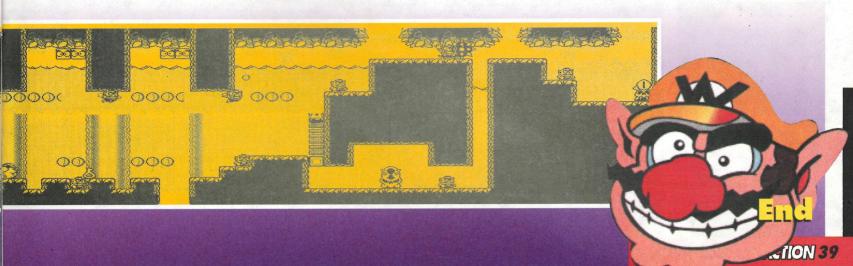

Wario Guide Part 7

Absolutely enormous! The never-ending level, initially this level will be flooded, and to clear the water you will have to hit a switch in level 33. The ladders and extra coins will appear once the level has been emptied of water!

These coins can be yours by collecting the invincibility icon from a nearby block!

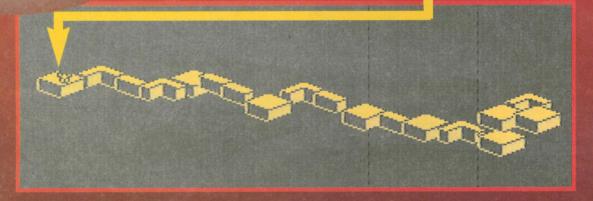

MONST

PART ONE

The game of the year is starting to cause problems, so we at GB Action have decided to bring you a full guide to this crazy labyrinth of danger...

STAGE 1

STAGE 1

01 Dead simple this. Use the bombs to blow the blocks away and then use the bombs again to destroy the crown thing!

STAGE 2

02 A little difficult this one. One of the blocks will vanish as you land, giving you just enough time to leap on to the next one. Some precision timing and exact skill is needed or the cauldrons below will kill you instantly. Make sure you are carrying the bag so you can collect the block at the foot of the others. You'll need this to leave the room!

03 & 04 Use the extra block to place on the lift to collect the egg. This will allow you to remain safe from harm in the next room.

STAGE 3

05 A very icy floor here. Push the block towards the door past the nasty, but watch out – if mistimed, the nasty will guide your block away. NOTE: It pays to remember that at any time, and no matter what stage

you are on, you can have another attempt at a room by leaving and then re-entering!

06 The trickiest room in this entire level as each block will disappear as you land on it. As before, you will need some precision timing to hop across the platforms – one mistake means you've lost a life! The only blocks which don't disappear are the ones underneath the doors.

07 The blocks disappear, causing you to die if you fall. It's tricky, but once again, can be cleared safely with careful timing.

08 Not a worry if you time this correctly. You can walk on to the moving platforms and stroll out unharmed, but a single mistake and you will fall and die instantly!

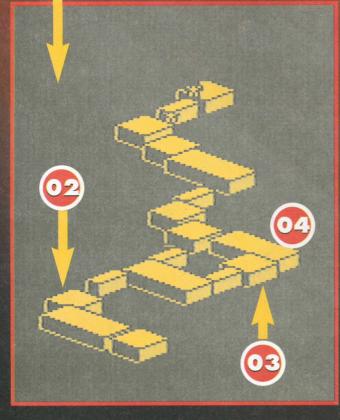

09 Tricky but very possible. It's best executed while still influenced by the lightning icon. Pick up the bombs, drop one on the edge close to the professor and push it off. Run away from the impending explosion and you can leave stage three!

honest, that's about it!

Retro fans are still in love with the game today, but the lack of depth is a serious problem With the older games all making an appearance nowadays, Asteroids can boast it was around long before most of the rest. Maybe this is what started the current trend.

SAME

Apparently the game is over. Maybe I'll have better luck next time

WARP RATING

Clear and precise graphics, simple (if rather samey) gameplay, and, er, that's it! What more can be said? Asteroids has already proved its worth over the years and it's still here. However, I'm not so sure, so I'll only give it a score of three Tardis'.

DRIVIN-

favourable review for one of THO's finest efforts of old. Things are changing nowadays for this once dreaded software house, and Madden '95 and the yet to be released FIFA are true classics with gameplay, graphics and challenge all packed into the carts.

Back when this was bunged into the 'Boy, THQ games were the carts you were given to review if you were unlucky. However, Race Drivin'

The dashboard of the vehicle you have chosen tells you everything you could possibly want to know

surprised many reviewers, even the GB Action team.

Basically you can drive one of four speedsters on several varying tracks. Some involve stunt driving and others, full throttle speeding. The choice, as they say, is yours.

The 3D graphics work surprisingly well and do give you the feel of the terrain, whether it be on a plain or climbing a hill. The only problems are the rather puny sounds and the feeling of 'why exactly am I playing this?' The reason for this is that all the racing doesn't lead anywhere. You don't actually finish the race, you just keep cruising around until you run out of time

Eventually you begin to understand how a mouse feels when it runs around in its wheel. Pretty pointless I'd say!

Perhaps I'm being a bit harsh, but then that's just me.

ALIFY 2.12 1.26

CHECH POINT

The graphics in Race Drivin' are absolutely superb, but the gameplay gets tedious very quickly indeed Initially everybody was taken a little aback by the stunning graphics, but soon realised there was absolutely no point to the hard driving. s stated at the time, baseball is one of the most tedious sports to watch but one darn fine sport in which to participate. Not only that, but Bases Loaded is one of the finest sports sims to hit the dimensions of the 'Boy.

13

So how does it stand in the Test of Time? Well, it is very hard to instantly step up to the plate and start hitting home runs from the off. It's one of those games that will keep

you playing until you can achieve the right mixture of skill and timing, even if you've played literally hundreds of times before.

The graphics are still clear and unusually cute for a sports sim, but they do work very well indeed. At no time are you left trying to figure out exactly what's going on, as is the case with some other sports games. For this reason it is extremely simple and enjoyable to play.

There are numerous pitches you can use to defeat your opponents, and guess what?

They're dead simple to do too! The rest is down to your fielders and how quickly they react. They're just as controllable as everything else in this excellent sim.

There have been no other attempts since, so that should suggest that either baseball isn't for the small screen or the pinnacle of the genre has been reached. I believe the latter.

By all accounts, Tokyo in the 29th century is not a place to visit. Crime is rife and units of cyborg teams are out to prevent numerous computerised crimes taking place in the ghettos.

Gogul is a computer hacker and somewhat strangely, a heavyweight boxing champion to boot. His three strong team are drafted into the Cyber Police to gain an opportunity to lessen their phenomenally large prison sentences.

After being beaten to a criminal by a mechanical construct, he uncovers a military operation to manufacture a brutal killing machine. Simply called The Psychic Trooper, it is constructed from a human corpse and a cyborg body. Combine this with super mobility and firepower any self respecting nation would be proud of, and you're getting close to the Psychic Trooper's make up.

Cyber City is quite simply stunning. Top story, top animation and top action sequences. Who could ask for more?

Moon as my castle?

Ideas and opinions are what we wanted, questions and problems is what we got! But hey, we're here to service your needs, so the questions and problems are answered and solved. We are good to you, aren't we?!

Dear GB Action,

Firstly, I would like to say how good your magazine is and I will definitely be buying it for centuries to come.

Now to get to my point: You have been saving up for about a year for a new and sparkling Game Boy game, so you go to your local store and buy it. You think, "Wow! A new game. This should fill up my spare time."

It's one of those great games which you play solidly for a month and then you finally complete it. After this the game gets lost behind your wardrobe and you never play it again for a loooong time.

When I bought Zelda I played it loads of times and completed it, then I completed it a few more times, then I put it down.

What I'm trying to say is that once you have completed a game you don't play it again much because you know how to solve the puzzles or whatever and it becomes boring.

Wario Land has six possible endings and lots of routes so you want to play it again after you've completed it.

Now that I've got that off my chest, I have a question: Is World Cup USA '94 the best footy game on the Game Boy?

PS My highest score on Tetris is 200 lines. David Rogers, Penarth

But David, did you complete Zelda and find all the seashells or all the hearts? Did you complete it without losing a life or were you hanging on at the end? While Wario is a good game, it's not as long lasting as something like Zelda.

Our mailbag contains loads of letters from people who completed Wario in a week or less. Can anyone honestly claim that they did Zelda so fast?

And the answer to your question is 'yes'.

Dear GB Action,

In your magazine you call the buttons A, B, C, D. On my Game Boy only two buttons are lettered. I would be grateful if you could tell me which is button C and D. On my Game Boy they are marked as Select and Start. Timothy Major, Aberdare

Timothy, Timothy, Timothy, we've never mentioned a C button. There isn't one. Don't worry, you haven't got a defective Game Boy. The Control Pad (that black cross) is sometimes referred to as the Direction (or D) button. Okay?

I was reading your October readers page a few days ago and I noticed that two females had written in to say that they had completed Tetris game B level nine, five high. Well, am I the first person to claim that I have finished Wario in one

day. Not only this, but I collected all treasures and got the maximum 99,999 coins giving me the

I have also completed Zelda in two days, collecting all hearts and seashells. Rory O' Malley, Kent

We've had loads of claims to Wario stardom but yours was the first to mention the plannumber one.

And then you go and disprove the comments made about long lasting games (above) although I find your claim a little hard to believe - unless you followed our guide, of course.

Dear GB Action,

I think that the SGB is an okay idea because it saves money (you can buy GB games to play on the SNES instead of SNES games), but the coloured Game Boy games don't look too good.

To cut a long story short I think the Game Boy is trying to be something it isn't. I for one am totally satisfied with the good old black and white portable palm pleaser.

Just out of curiosity I would like to know if there is a prize for the star letter and if so, what is it? Also I would definitely prefer posters (such as Cool Spot, Lawnmower Man and Kirby) to calendars. Oh, and I think a monthly art competition is a great idea.

Simon Warr (just call me Sim - no formalities with me) - How about an address Simon/Sim, we won't come round looking for you y'know.

Utter Drivel

Dear GB Action,

I come from America and over there lots of people want to know how you play 'Jimmy the Wonder Sheep' on MK2.

One day I was playing Reptile against Raiden. I had lost a round and won one. On the last round I won and when it said 'Finish Him' I pressed start, select, up, right, down, left, B, A five times very fast and suddenly the screen turned black and Jimmy the Wonder Sheep dropped from the sky and written on the screen it said 'You have found me, now you must break me'. I defeated him and he said 'Now we can play' and the game

reset itself and now I can be him all the time. It is very hard to do but it's worth it. Jimmy Joe Ray, alias Hugo el paso sam doogo, Harrow, Middlesex

I'd just like you to know that I know who you are, your address and your friends (AJ). I've informed the local psychiatry department so that they can give you the medical attention you so desperately need.

Your friends' infatuation with bottoms is unnerving. I feel a duty, an obligation to the good people who read GB Action to tell them your real name. But I'm out of space...

I'd agree that some GB games can look a lit- : tle garish with added colour.

The best bet would simply be to turn down the colour on your TV set, allowing you to still play the games on the big screen, but in mono.

And there is an excellent prize for the star your opinions and ideas in print, where they can be read and digested by millions of other Game Boy owners.

Worthy Endings Dear GB Action,

Hi, I'm a fourteen year old kid from Dublin [Hi -GBA team]. Firstly, just to get this out of the way, I buy your mag every month and I think you deserve a big round of applause because the mag is absolutely brilliant.

One thing I don't like is that Game Boy fanatics like me, from the fabulous country I live in, cannot go in for the competitions.

Okay, down to business. Something that drives me mad on games such as Mortal Kombat is that after you've battled your way through this game (which isn't that hard) and you have beaten Shang Tsung, all that happens is that 'Outstanding' comes up on the screen and the credits come down. Boring!

Compare that to the ending of Zelda which lasts for nearly five minutes. You wouldn't believe how many times I played it just to see the ending.

I want to congratulate Nintendo on a couple of things. Firstly on the standard of their games. You only have to look at the Game Boy charts and Nintendo dominate it every time. Also, the amount of games which are available for the

Will it only be games produced by Nintendo that will be compatible with the Super Game Boy? Finally (at last) could you give me some codes for Castle Quest.

Kenneth Moran, Dublin

Thanks for your kind words, Kenneth. Why not send in entries to the competitions. You never know, should your name get pulled out of the proverbial hat, a prize may make its way to the Emerald Isle.

I agree with your comments about game endings. The Zelda one has never been topped and gives such a sense of achievement it is worth playing the game through several times.

And all Game Boy games are SGB compatible, not just Nintendo's. As for Castle Quest, we don't like to see our readers struggling, so here are a few codes:

Level 3: 4R1NG2

Level 4: M2L4N

Level 5: CH2RR6

(others I found went AWOL, sorry!)

Assorted Comments

Dear GB Action,

I like your mag but I hope you're open to some constructive criticism (and compliments).

Firstly, in reply to Miss H. Easton [issue 30], I agree with you about invincibility cheats and the like spoiling a game. But, if you're stuck on a tricky part of a game that you just can't get past, it ends up on the shelf gathering dust. However, if you have a handy tip or hint to get you past the offending point, it gives the game a whole new lifespan.

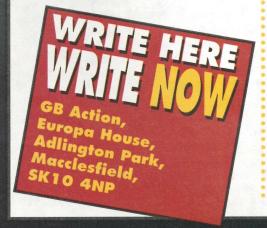

I have seen a Manga film and to be honest I wasn't blown away, but then I didn't think it was crap. I don't understand why it has a place in Game Boy Action.

I like miniature wargaming and I bet a lot of other Game Boy owners do as well, but we don't demand that it has to have a place in our Game Boy mag.

I'm sorry, but a vague possibility of a Manga related game on the 'Boy doesn't warrant it a place in this mag.

About rating games. I think that the Buyer's Guide is great, and it's nice to see it has been updated recently. But instead of having conflicting reviews in the form of Test of Time, why not just change the ratings in the Buyer's Guide now and then?

Failing this you could indicate in which issue an old game was Time Tested by putting the relevant issue number next to the review in the Buyer's Guide.

Please tell me what is the point of Public Eve? Surely one person's view of a game is not worth printing. A game should be reviewed by the whole GB Action team, not one amateur.

Are you aware that in issue 30, Michael Compton sent in a review of Double Dragon 2 that was taken straight from your review in the Buyer's Guide. That idiot should be shot.

Finally, could you use more percentages in your ratings of games and play them through properly. Percentages are more accurate than marks out of ten.

And your review of Navy SEALS says the game only has four levels, but if you persevere you would see it also has a sprawling fifth level.

What is the best GB game apart from Zelda and platformers?

Should I get Empire Strikes Back or Lemmings 2? Or even Bomberman 1/2? Alex Monaco, Upper Caldecote

Some very fine points, Alex, which deserve comment.

Firstly, you do have a point about the use of cheats. The problem seems to be that many people are all too eager to administer hints and cheats, rather than attack the problem themselves. Of course, this seems to defeat the object of the game playing exercise, but it's their money, I suppose.

To be fair, Manga does have a more widespread appeal than miniature wargaming. entertaining hobby though it might be. And the news of a Manga related game is definite - THQ will be releasing Akira in the new year.

Our ToT section is based on the philosophy that you shouldn't give games new percentages since it would be unfair to take them out of the time period when they were originally released. However we will bear your comments in mind.

Public Eye has always been a popular feature, since, while the vast majority of people agree with the team's reviews, some don't, and like to express their opinions of games through this column.

We think it fair to give the games buyers a say - so Public Eye stays (so long as we keep receiving the entries).

Michael Compton's review could have been pure coincidence, but to make sure, we took him out and shot him anyway. We'll have none of that plagiarism thing here, thank you very much.

And we play the games as much as is humanly possible to get the best understanding of what they contain. Obviously we can't play every game from beginning to end because that would be impossible, so we do what we can in the limited time available.

It is inevitable that we will miss certain bits in some of the more in-depth carts - but that's acceptable 'cos we're perfect the rest of the time! Well most of the time anyway. @A

ASK DOCTOR

GB Action, Europa House, Adlington Park, Macclesfield, SKIO 4NP

Yet another conundrum of your queries and concerns, all expertly answered by your friend and mine, the ridiculously helpful Doc

- 1. I'm looking for a decent, original game. Would Populous be a good choice?
- 2. Which is better, Bomberman or Dynablaster?
- 3. Last year (or two years ago) I heard news about a 'work boy'. It was a mini keyboard that plugged into the Game Boy and could be used as a personal organiser etc. Now I can't find it anywhere or in any advertisement. What happened to it?
- 4. Any codes for Best of the Best? George Berrills, Co. Louth, Ireland
- 1. Probably. Populous is certainly original and an epic challenge if you can get into it.

 2. Bomberman, although it seems that it may not get a release. Sad and surprising since it's such a good game, but that's software companies for you. You'll still get loads of fun from Dynablaster though.

 3. It appears to have disappeared to the great innovation graveyard in the sky.

 4. On the options screen enter XV554QDX8 for extra strength and a couple more medals. Game Genie code: NOS 540 HHD will give you 98% fighting ability and a chance
- give you 98% fighting ability and a chance to win the championship. Also try NOS 543 PHM for 99% ability.

How do I get the Magic Rod on Zelda? I am also stuck on level eight, in the third room north from the entrance. You have to fill the floor with the moving chest, how do you do it?

Justin Lee, Hainault

Get enough keys to get through the blocks barring your way to some stairs (room 34 on the map). Then kill the boxer. The chest there holds the Fire Rod.

You don't have to fill the area north of the entrance, just direct the floor to the passage you want to travel on.

I am stuck on the T Rex. How many bullets does it take to kill it? Can you make Lex go behind you when she is following you? Legh Livesey (7), St Helens

The simple answer is that you don't kill the T Rex. Just keep avoiding it and Lex should follow you to the ends of the Earth.

I am having difficulty beating the Genie at the end of Syrup Castle. I can hit him but I can never hit him again. How many times do you have to hit him and how on Earth do you do it?

Paul Murphy, Kingston

Timing and patience is needed. You have to throw the lamp so that it creates a cloud which floats upwards. Jump on this and then leap on to the Genie's head. About seven bashes should do it.

ortal Fatalities

On Mortal Kombat 2 could you tell me how to do the fatality, babality and friendship moves for each fighter? I would be extremely grateful for your help. Robert Johnson, Ryton-on-Dunsmore

Okey-dokey, and there's also a list of how to impale your opponent on the extremely painful ceiling spikes:

Liu Kang

release Spikes: forward, down, forward, kick Babality: down, down, down, kick

Now I think that most of these are right, but since nobody ever seems to be able to agree on what's what, don't anybody write in and give me a hard time if they don't work! I'm doing my best.

Nintendo
It's been a bit of a wait but when he arrived Wario delivered the goods in quite impressive style. While not particularly difficult to complete, Wario's land is full of hidden levels and hidden treasures. Bold graphics and super sonics make helping Wario's search for cash a quite enjoyable one. A top class product. 93%

Edd the Duck

Set over 12 levels this has all the ingredients of a fun-filled romp yet none of the longevity or class to make it too memorable. Edd's a zippy mover. Sheer speed rather than skill carries him over some levels. A bit too much like Taz-Mania really. 77%

Felix the Cat

Quite a nice little attempt at moving away from the traditional platform enviroment. You play fire fighters rescuing babies and damsels in distress from buring infernos in an underground station (ahem), warehouse, office block, etc. It's hard work with some fiery obstacles, but does lapse into poor taste, 78%

The Flintstones

Yabba-dabba-doo! Well, there's no need to get that excited because this is another stone age platform romp albeit with admittedly excellent graphics. The let-down is that there's no Barney Rubble! 78%

Tom and Jerry: Frantic Antics

Simple, playable platformer featuring the world's most famous enemies as erm...friends. Join Tom on a scooter avoiding fire hydrants and Jerry in a swimming race as they search through a number of quite large levels. Madcap and frantic action make this one worthy of a look. 85%

Home Alone 1 & 2

Two sad films have become even sadder games and complete dross is what you get here. The sprites are shamefully slow and gameplay is more laughable than cute little Master Culkin himself, as you endlessly leg it around. Very poor! Don't buy it, not even for a tenner. 35%

Mixing both flying and beat'emup sections with the traditional platform thrills, this is a high quality release. Some really great graphics and totally unstoppable gameplay all add up to a near-excellent release. Recommended! 85%

Kirby's Dream Land

A gorgeously animated and incredibly cute romp around pixie land. The hero Kirby sucks in baddies, then spits them out around six levels. Although very easy, it's got bags and bags of fluffy loveability. In other words buy this game, 89%

Joe and Mac

A clobberingly groovy, great platformer that's hard enough to lure even the toughest of gamers into its snare. Cute graphics and chuckalicious antics make for great all round entertainment through nine thudding levels of charm. 89%

Jungle Book

An excellent movie licence, whatever next? Yes it's a platform game, but lo and behold, we all liked it. Finding a game which looks excellent, plays well and is seriously addictive is pretty difficult to achieve these days. This is one of them. Thankfully. 90%

Kid Dracula

Although it would seem to be aimed at the younger market, the kid does his best to give you a challenge to sink your teeth into. Full of fun and twists, it's jollied along nicely despite the levels being far too short. A small grip, but Kid is remarkabely playable. 84%

Last Action Hero

Arnie's big budget, big flop vehicle is a decent whack at the action/platform style. Some excellent graphics are combined with some varied gameplay but this certainly isn't the totally thrilling adventure it could have been. Sloppy presentation in places undermines some of the good things. 80%

Looney Tunes

A fun and highly enjoyable hike with super sparkling cartoon characters, simply gorgeous graphics and more than ample variety. It's instantly appealing and engaging but not, unfortunately, too long lasting. Still, there are plenty worse. 90%

McDonaldland

A competent enough and quite enjoyable jaunt although it doesn't even try to offer anything new. A bit of a cross really between The Blues Brothers, Mario and a Big Mac. And exactly the same as Spot The Cool Adventure. Not to be confused with Cool Spot! 80%

Mega Man I, II, III & IV

Although all four games don't differ much in terms of style or gameplay, the challenge just becomes greater. Mega games for the Game Boy with tons of robotic fury and swiftness combined with endless thrills and spills. Mega! 90%

Parasol Stars

Fight through seven levels brolly bashing everything in sight with some fearsome raindrops. Graphics are pukingly cute with ultra-dreamy sprites and you'll need absolutely tons of stamina and concentration to make any headway at all. 76%

Popeye 2

A darn fine escapade for Popeye the sailor man. He's a fine mover and graphics are clean and not over fussy with plenty of variety through the levels. Modelled blatantly on Mario, it's not as challenging as it could be but there are lots of secret bits to find. 83%

Pop Up

Just bounce a ball from platform to platform, collecting each and every item on the screen. That's it. Some columns are angles. others you'll need keys for before passing through. Very samey and hard. 61%

Prince Of Persia

Silky smooth animation is just the polish on this very sweet turkish delight of a platform game. With some very difficult problems to get around and lots of lasting appeal it's a more mature adventure. The final levels keep you playing on. 90%

Pugsley's Scavenger Hunt

Not half as entertaining, nor anywhere near as challenging as the first Addams Family game. Graphics and sound FX are minimal and the game merely consists of fatso waddling around the mansion bopping enemies with his overweight bum. 71%

Speedy Gonzales

Just what the doctor ordered! A really smart, genuinely fast six levels of unceasing taco-fuelled mayhem! Speedy Gonzales exudes death to hedgehogs from every pore as he races across your screen in a bid to rescue his mates. Definitely recommended. 90%

Super Hunchback

Addictive gameplay and humorous touches make this one platform game that stands out from the crowd. Rescuing Esmerelda will be a task to cherish for any dedicated platform nut. Almost as good as the ancient arcade game. What more is there to say? 91%

Spider-Man 1, 2 & 3

If you avoid the first game in this series, you'll have a fine web-sling of a time. Levels are diverse as the webbed one defeats deadly dozens of dastardly foes. Be warned though, Spider-Man 3 is horribly difficult. 83%

Spiderman & The X-Men

A far cry from the previous three carts with an almost impossibly bland plot and gameplay. The webbed one, along with his buddies the X-Men, must defeat Arcade in his own rather nasty theme park. Poor gameplay and graphics really let this one down. 57%

Super James Pond

Make it a meatier challenge and you've got a winner. It certainly invites plenty of exploration with lots of winsome characters, but there just aren't enough baddies. It can also be difficult to see what's going on. 80%

Super Mario Land

Released to coincide with the launch of the Game Boy itself, it may be showing its age in terms of graphic style but you can't take anything away from the absolutely fantastic gameplay. Certainly one to keep coming back to. 92%

Super Mario Land 2

@×00 0×040 @×03 T395

A cuddly and quite exquisite platform caper that absorbs and also expands on its infamous predecessor with distinct worlds to explore and secret rooms to find. The only fault is that the battery back-up makes it far too easy, thus spoiling an otherwise excellent platform game. 90%

Taz-Mania 2

Taz returns in another adventure of spinning mayhem. Through the island he has to do some very interesting things which will take you ages to do, like run and jump, and spin and roar and everything. Which is dead good cos it is, and nice and other things, 83%

Tiny Toon Adventures

Cutesy pie graphics and wonderful slickness make this a real visual treat. Jolly along with some great imaginative gameplay and what do you get? A hugely playable romp to be savoured that is in no way as easy as it first seems. 89%

Tiny Toons 2

Montana Max has taken over the movie theatre and Buster Bunny is entrusted with the task of saving his pals from having to sit through one of his movies. Cute graphics in a jolly good fun platform romp make it a well worthy sequel to the excellent first instalment. 88%

Titus the Fox

Graphically this is extremely detailed but there's just not enough bite on offer here. Gameplay ambles slowly along and each background tends to resemble the next. Crazy platform action with a cute fox thrown in. 67%

Universal Soldier

Wielding more punch than Rocky this is non stop action all the way. A great control system with tons of moves. Jean Claude Van Damme it's good. 80%

The Game Boy version does the ninia ant from the Nth dimension proud. Amazingly fast paced but easy controls make it eminently playable. Fine conversion to the the handheld. 92%

BEAT'EM-UPS

Battletoads

Time to set about rescuing your pals in a clobber happy battle with shades of a platformer chucked in there. A great little game that's action all the way. An office fave, nearly. 91%

Double Dragon

The whole series is dead dull and oh so boring as you stalk the streets and punch your way through the odd wave of henchmen, getting mangled every so often. Totally thrill-less. 25%

Lethal Weapon

Action is go, go, go and the game does get better the more progress you make. However, sadly, there is a distinct lack of moves to perform, thus making it considerably more dull and boring than joyfully exciting. Bit of a shame really. 72%

Mortal Kombat

Even without the blood and guts, colour, Johnny Cage, and that ole 16-bit magic, Mortal Kombat is still a highly successful conversion. You beat people up, surprise, surprise, but in a number of endearingly vicious but sadly PG-rated ways, 87%

Mortal Kombat 2

Eagerly awaited and not disappointing, MK2 is probably as good as a beat'emup will get on the Game Boy. All the moves are here and most of the characters, with clear, surprisingly well defined graphics. Easier to execute finishing moves add to the effect. Will sell by the truck load. 88%

Pit-Fighter

Tons of choice on offer here with a mere five opponents, yeah right, I don't think! Earn money with more muscles and beat the living daylights out of the others with your special moves. Boring, boring, boring, boring. Get the message? 33%

Raging Fighter

A slap happy, stumble over your shoelaces game rather than a full blooded raging fight. There are seven fighters to choose from and a vast array of moves, but it hasn't quite enough guts to punch you. It's really quite middle of the range. 74%

Teenage Mutant Ninja Turtles

Will they ever stop taunting us with their ridiculousness? Run along the scrolling scenery while beating up warriors, yeah, dead boring. Graphics are pretty cool but even great graphics can't redeem this game. 59%

WWF Superstars 1, 2 & 3

The graphics always get bigger and better, but if you've got one of these games then no way do you need any of the others. The wrestlers have had their heyday. Just wish they'd leave us alone and stop churning the damn games out, 54%

SHOOT'EM-UPS

Asteroids

A faithful blow by blow version of the smash hit coin-op. Old as the hills but still loved by millions, inluding us. It looks a bit jaded on the old 'Boy and is very barren, yet has tons and tons of nostalgia value. 73%

Centinede

Based on the ancient coin-op success, this remains faithful to its grandad and has been converted to the little screen as well as could be expected. Hugely repetitive and simple, it becomes a little wearisome sooner rather than later. An old classic back from the dead. 60%

Faceball 2000

Basically Pacman in 3D as you travel at break-neck speeds around a maze of corridors, zapping hordes of others in your way. Average in one player mode the fun really starts when up to four players compete. Then it's above average. 76%

Fortified Zone

Nuke your way through four levels overloaded with gun toting guardians and warriors. You need a fast trigger finger but no thought in order to win. 65%

Parodius

The programmers behind the greatest blasters show they've got a sense of humour as well. The variety and originality lift this just above Nemesis 2. Cuteness often equals childish play. Not here. Belly dancers and piggies provide exciting cannon fodder, 90%

Hunt for Red October

A horizontally scrolling shooty shooty affair in which you take control of a Russian submarine

as you shoot through obstacles and loads of nuclear armed enemies. Straightforward really excellent presentation, 65%

Navy SEALS

Control a crack team of undercover marines with some deadly missions to complete. Graphics are well above par but four levels don't sufficiently hold your interest for long enough, 73%

Nemesis 1 & 2

Widely regarded as the ultimate definitive blasts on the diddy screen, and quite rightly so. Fast-paced and trigger happy action right from the off and quite tough to get your teeth into. Top Stuff. 90%

Pang

Extremely simple yet immensely compulsive, all you have to do is trek around the world popping bubbles which then divide into smaller bubbles. Only the sharpest shooters will survive in this gentle shooty game which holds plenty lasting charm. 74%

Probotector

Gung-ho blast and be damned warfare at its very, very fiercest. If GB blasting is your cup of tea, then you can't go far wrong with this bundle of dynamite. Red hot. In fact, hotter than a very hot thing! 91%

Desert Strike

An improvement on the first game yet still not particularly awe inspiring as RoboCop wipes out drugs and thugs and tries hard to uphold the law. The difficulty setting is just right to make it worth a little look. 73%

R-Type I & II

Venture into the blackness of space for a blasting freak's dream. Everything here is represented to the best of the 'Boy's momochromatic ability and is superbly drawn. Excitement is assured as you streak across space avoiding the acrid taste of death. Not much to choose between them, so surprise, surprise they've both got... 88%

StarHawk

Alien blasting that follows the norm as you shoot through the scrolling heavens. It's very detailed and well presented but innovation has been overlooked and each of the five worlds badly lack originality. 69%

Star Trek

A game that boldly goes where so many other games have gone before. There are plenty of levels, but the warp drive is about as fast as driving a Robin Reliant uphill, and all the planet wandering becomes a bit lame. 60%

Terminator 2

A six stage shoot'em-up that comes across as an excellent movie licence with plenty of variety and toughness to cope with. Ouite complicated with loads of messy backgrounds and numerous sprites in there, but certainly guaranteed to last you a long, long time. 84%

Terminator 2: The Arcade

A head-on attack of ultra violence, nothing more, nothing less. The backdrops are complicated and it's easy to lose your target among the rubble and be unable to figure out just exactly what the heck you're supposed to annihilate. 76%

Total Carnage

Throwing political correctness aside, Total Carnage is a complete, unadulterated blast. The graphics are poor, sound limited and gameplay nothing special. But if you want to kill mutant aliens in their droves, there's nothing better. 78%

DRIVING GAMES

Days of Thunder

Takes after the naff film. Not really fast enough to satisfy racing pros and even fewer thrills and spills to tempt you to come back. I'll say this for it, the car drives nice and smoothly and it's pretty hard. All-in-all though, it's just too bland to get a remotely decent mark. 41%

Ferrari Grand Prix Challenge

It may have all the mod cons and technical stuff but frankly it's downright boring with too little challenge. Very poor indeed. A Reliant Robin of a driving game. 49%

F1 Pole Position

Earning the right to compete in the world's foremost driving championship adds a challenging new angle to the well covered driving genre. There are plenty of options but some untidiness in the presentation stops Pole Position from really being a classic. 83%

F-1 Race

A roaring speedster of a game that comes with a four-play linkup adaptor to make for one heckuva big monster of a top competitive challenge. Fast and frantic, it plays like a big bag of dreamy juicy sweetmeats. And you can play with your chums too! It's pretty smart. 88%

Lamborghini

Despite a few minor faults Lamborghini is fast, furious fun. It may not look like the greateset driving sim ever, but with so many options together with some really quite excellent gameplay make this well worth a closer look. 86%

Motocross Maniacs

Graphically simplistic, this little gem oozes sheer playability with eight different courses and loop the loops to enjoy. Obstacle packed, and full of frenzy it's a perfect biking sim. Not bad at all. 80%

Race Drivin'

Lots of mean machines and fiendish circuits to choose from and good 3D perspective make this an easy-to-get-into, but challenging, sim. The ramps are particularly cool. 73%

Road Rash

A nasty little rash that is most irritating. Don't be impressed by the beat 'em up connection, one type of punch hardly transforms a poor racer into anything remotely worthwhile. After all the hype and the advertising, and the good versions on other machines this was a little too disappointing. 53%

Super RC Pro Am

Slick, fast and playable, loads of tracks and the four player link option offers the greatest multi-player fun on the 'Boy. Car upgrades, weapons and tough competitors are all included. The sort of game of game you'll pick up for a quick game and play all day. 89%

All-Star Challenge 2

This is basketball on half a court with side on and facing basket views. Tons of options and top quality graphics don't really create as much sweaty, pulsating action feel as you'd like and its appeal is limited. 74%

Bases Loaded

A heckuva good baseball sim that, once perfected, will offer hours of enjoyment. Graphics and sound aren't too hot but the game's controllable enough and builds up just the right amount of tension to give you a run for its money. 87%

Championship Pool

Realism, playability and attention to detail add up to make this a quite competent pool sim. The small graphics can be a bit of a strain on the eyes but the bevy of options and sub games should keep you coming back for more. And it's pretty good value to boot, 88%

George Foreman's KO Boxing

Lily livered punches and nonexistent gameplay make this the worst fight sim ever as the big fat waddler stands rooted to the spot with a jab once every blue moon, if you're lucky. Rank gameplay and ranker graphics, this is awful. If you must buy a boxing game get Muhammed Ali's instaed. 24%

Simple, tidy and an original angle on the usual scrolling of footie games. Okay so not it isn't perfect but the Super Cup offers a varied selection of opponents and with a two player option to keep you and your mates occupied it certainly has plenty to offer. Future releases may just push this effort back a bit, but it's still decent. 90%

Hit The Ice

Unfortunately this game doesn't quite hit the mark. OK, it plays well enough yet lacks that certain je ne sais quoi to live up to expectations. Emphasis is quite squarely on the violent aspect of the game. Playable only as a diversion rather than full blooded sports action ice hockey. 73%

Jack Nicklaus Golf

Simple to play with a great learning curve and good realistic graphics. As with real life golf you can never truly master the game but it's enjoyable to try. If the Ryder Cup's inflamed your golfing appetitie then maybe you should try this. Or just head straight for the 19th. 80%

Jimmy Connors Tennis

Jimmy steams to the top of the pile marked 'super tennis sims' in a game that does the great man's character proud. Only available on import but with great graphics and challenging opponents this is certainly one to check out. There's a great two player option too. 91%

Jordan Vs Bird

Not a full blown basketball simulation, more like a game involving two players, one basket and a ball. Doesn't really work as well as it might have done. Not the best basketball game around, more of a one-onone, but not too bad. 73%

Konami Golf

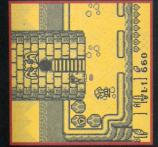

A challenging simulation of this relaxing pastime. Let down by the lack of courses (just two are featured), Konami's Golf still provides a decent test of skill, touch and judgement. Good graphics add to the golfing feel. One of the best golf sims. 81%

With everything you could possibly need for a few rounds and a battery back up to boot, this is a near perfect sim for the budding enthusiasts with plenty of different holes to negotiate. Fore. 80%

Sensible Soccer

Realistic football action is let down only by the lack of two player option and the minute sprites. Get over these little problems and there's some fun to be had stroking the ball around the pitch at club or national level. A good effort in the monochromatic confines of the Game Boy. 85%

Mario Tennis

Nintendo

Mario and Luigi battle it out with backhands and volleys in this wonderfully realistic sim. Still a fine tennis game despite the recent competition from Jimmy. It's fast, addictive and four difficulty levels calls for sound tactical thinking. This gets played a lot round the office. 89%

Side Pocket

Not really the pool simulator you're led to expect. All you do is knock the balls around a six holed table and pot them in numerical order, which is what you do in pool, sort of, but not quite like this. As such the appeal soon wanes. 63%

Speedball 2

A future sport game combining brutal non stop action in the arena with team management and coaching, strengthening a squad of 12. Chuck a steel ball around and try to knock your pal on their butt. A pretty top hand held conversion of the Amiga classic although there could be a bit of eye strain if you're not careful. 91%

Supposed to be a bit like Tetris but it fallsflat on its face. The object is to line up lots of coloured pills in a jar. A major disappointment all-in-all considering the cool Dr. Mario connection thrown in. 42%

Garfield

Doesn't stray too far off the beaten track as far as puzzlers go, but still an enjoyable play with a password option that sustains your interest through some of the more difficult labyrinths. Garfield drills through blocks, finds keys and opens gates to get into new rooms, all while warding off the nasty villains, 87%

The Humans

Plenty of mind bending puzzles around as you direct a bunch of gormless neanderthals over 28 varied terrains. Well presented, tons to chew over and a very good Lemmings sideline. It might get a little bit tedious if this isn't your cup of tea. A potential rival to that classic Lemmings. 87%

New Chessmaster

Erm, basically it's chess. You either like or loathe it. For chess fans it's about as portable as it gets with no tiny pieces to drop. The computer players certainly know what to do! If you can get hold of a copy, it's not the sort of game you'll want rid of in a hurry, if you're into chess! 85%

Build or die in a medieval heaveho involving power, battles and bricks. It's tough and frantic as you rebuild walls within a time limit and prepare for much rougher onslaughts. Think you can do better than this month's selection of our readers' reviews? Then why not drop us a line at the usual address – you might just get lucky

Namco

Pacman is as Pacman does, plain and simple. What else can be said about this age old classic from the early 80s? Older readers may remember Pac-mania which was at its height between 1981 and 1983 when all your mates would brag about how many screens they had cleared.

Pacman on the GB seems a stupid idea because of the sheer size of the mazes in the arcade version and the diddyness of the sprites.

Surprisingly Namco have done a superb job of the conversion to the small screen, allowing the player to play on two different sized mazes. The smaller one crams the whole maze on to one screen, which unfortunately makes the sprites very small, but the larger one scrolls and shows you about 75% of the maze.

It is hard to tell what is going on in the other missing quarter of the maze (of course it is Einstein!). I still prefer playing on the larger maze if only to reduce the thumb ache!

This is a faithful conversion of Pacman and as far as the retro revival is concerned, Pacman proves that it is still going strong. Just imagine how many ten pence pieces you could have saved if this game and the Gameboy had been around in the

early 80s.

Kirby's Pinball Land

Nintendo

First we had Kirby's Adventure, then Kirby's Dreamland and finally Kirby's Pinball Land. What next for this irritating little round ball of job? Hopefully a smack in the face!

Kirby is becoming very popular – too popular. He was plucked from obscurity after failing an audition for a 'Slim Fast' advert for being too fat. Now he's starring in his own Game Boy games.

The type of gameplay is of course pinball. There are more tables than an MFI showroom. That is if the showroom only has two tables. The trouble is when you've played one table you've played them all. They are all basically the same. Really, the whole caboodle is 'Revenge Of The Gator' with knobs on!

The music is like a 24-hour radio wurlitzer of Cliff Richard music (where would we be without Cliff eh? – Ed). It's that bad!

One of the tables has a one armed bandit type thing. It is so like the real thing, except it doesn't have cigarette burns on the nudge button.

There are bonus screens, one of which is a football type game. You can play like Liverpool FC or you could play well.

I bought this cart on sale from my local Woolies. Yes it is quite unusual for a sweater shop to sell Game Boy games (not really, Woolworths stores everywhere seem to sell them nowadays – Ed) but it's not as surprising as Kirby's success.

Now you've read my review, you will know what I think of this game. Let me get this straight, Kirby's Pinball Land is not a bad game, it's just a really terrible one.

Revenge Of The Gator is much more addictive and original. The graphics may not be up to much but who cares?

The best thing they can do with Kirby now is to make a handbag and matching accessories out of him. You can probably have more fun with a handbag than you can with this game.

Anyway, at least there is one good thing about this cart - it makes a great beer mat! (Small beers you drink in Yarnfield methinks - Ed once again).

Neil Hassal, Yarnfield

Super Mario Land 2 Nintendo

This is a brilliant game. The graphics and sound are much better than the first instalment. The gameplay is cool and the sprites are well drawn. The only problem is the lastability with the battery back up, but it's still VERY tricky on Wario's castle.

When you've completed it for the first time, you'll come back for more and still find hidden rooms, extra lives and short cuts through the levels.

A definite game for coming back to again and again. I know I did. A must for Mario fans and platform lovers alike.

Sion Bonett, Cardiff

That's all for this month. If you fancy sending us reviews of games, be they good or bad, remember to keep 'em short, keep 'em sweet and try your best to keep 'em neat.

Jurassic Park

Ocean

Film licence games aren't very good, with the exception of the Star Wars games. Strangely, here is a game that is very good.

You will probably know the storyline, but for those that don't, Dr. Grant has been invited to a new theme park along with some other people. Then it all goes wrong and that is where you start the game. A lot of dinos want to eat your brains for breakfast but at least you've got a gun.

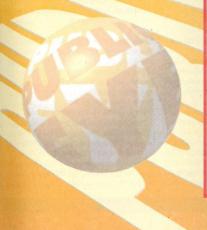

The animation is great apart from when you jump, and the music is brilliant when you blow up a dino – there's an explosion that sounds incredibly real.

Most mags said that the egg collecting gets boring at about level four, but I think it's good for all six. To add to

this, it's a nice challenge.

Not only do you have to find all the eggs and get into the buildings, but Tim and Lex are trapped! You must find them and avoid the T-Rex and a herd of Triceratops – and that's only levels one and two. Buy it!
